

Prevex® Smartloc™

2 Becken, 1½" Schraubverbindung

Auslauf: Ø 40 / 50 mm

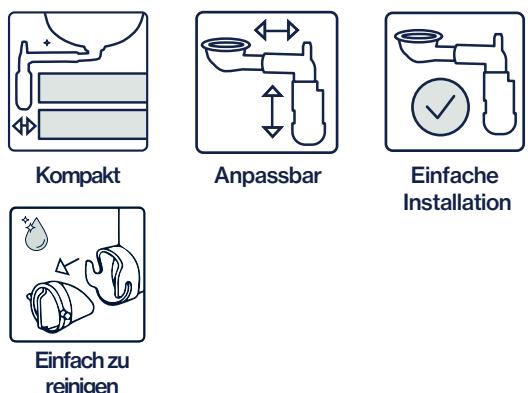

Smartloc ist der ultimative Ablauf für die Küche. Er ist vollgepackt mit cleveren technischen Verbesserungen, wie z. B. glatten ovalen Rohren um den Durchfluss zu verbessern und Rückstände zu vermeiden. Smartloc Siphons sind einfach zu installieren und können durch ihr raumsparendes Design sowohl vertikal als auch horizontal angepasst werden. Und das Übrige: Es wird kein Spezialwerkzeug benötigt, wenn Sie sie einmal reinigen müssen und der Anschluss für die Wasch- oder Spülmaschine ist enthalten. Das nennen wir smart!

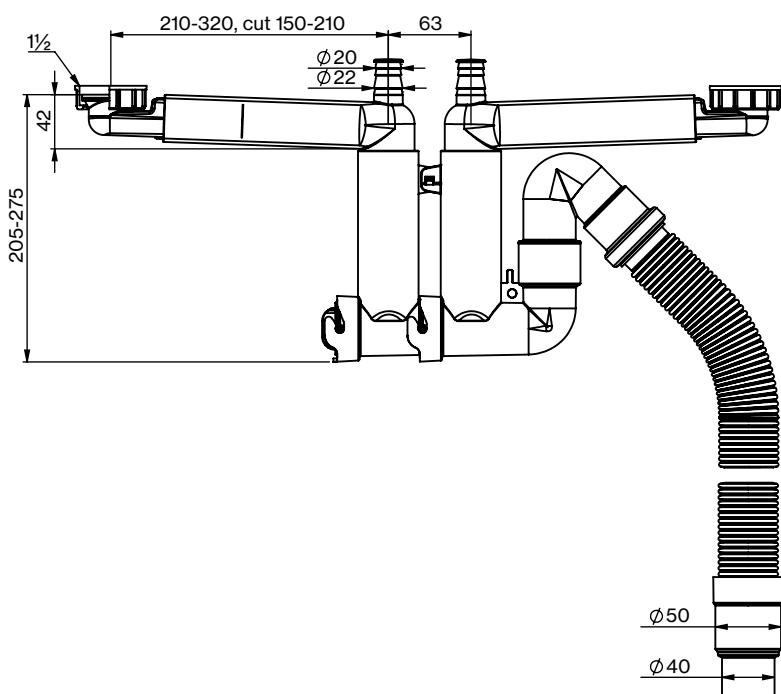

Technische Daten
